INSTRUCTION MANUAL

Out of Sight™ Extra Wide Bedrail

Thank you for purchasing a Out of Sight™ Extra Wide Bedrail from Summer Infant. This innovative bedrail provides safety for children as well as convenience for parents. It is an essential piece when transitioning your child from a crib to a bed. When the bedrail is not in use, or if you simply need easy access to the bed, fold the bedrail down and slide it under the mattress.

⚠ WARNING:

SUFFOCATION AND STRANGULATION HAZARD:

- Gaps in and around bedrails have entrapped young children and killed infants.
- NEVER use with children younger than 2 years old. Use ONLY with older children who can get in and out of an adult bed without help. NEVER use in place of crib.
- NEVER use unless bed rail is tight against mattress, without gaps, and at least 9 inches from headboard and footboard. Do not fill gaps will pillows, blankets or other items that can suffocate children.
- NEVER use on toddler bed, bunk bed, water bed or bed with inflatable mattress. Use ONLY on adult bed.
- USE only on adult bed with mattress and box spring or platform bed (support board 5/8 in nominal thickness).

⚠ WARNING:

ENTRAPMENT HAZARD:

- NEVER use bedrail without properly securing bedrail to bed. Incorrect installation can allow bedrail to move away from mattress, which can lead to entrapment or death.
- Discontinue use if damaged, broken, or if parts are missing.

NOTE: Periodically check the bedrail for tightness to ensure bedrail is snug against bed.

MODE D'EMPLOI

Out of Sight™ Barrière de Lit Très Large

Merci d'avoir acheté une barrière de lit de grande taille Out of Sight™ de Summer Infant. Cette barrière innovatrice, essentielle au moment de faire la transition de votre enfant d'un berceau à un lit, est à la fois sûre pour les enfants et pratique pour les parents. Lorsque vous en n'avez plus besoin ou que vous désirez accéder au lit, repliez la barrière de lit et la glissez sous le matelas.

⚠ MISE EN GARDE :

SUFFOCATION ET RISQUE D'ÉTRANGLEMENT :

- De jeunes enfants se sont retrouvés pris dans l'espace entre la barrière et le lit et certains en sont décédés.
- NE JAMAIS utiliser la barrière avec des enfants âgés de moins de 2 ans. Utiliser la barrière SEULEMENT avec des enfants plus âgés qui sont capables de monter sur un lit d'adulte et d'en redescendre sans aide. NE JAMAIS utiliser à la place d'un berceau.
- Utiliser la barrière SEULEMENT lorsqu'elle est collée contre le matelas, qu'il ne s'y trouve aucun espace et qu'il y a une distance d'au moins 23 cm (9 po) à partir de la tête du lit et du pied du lit. Ne pas remplir les espaces d'oreillers, de couvertures oude tout autre article qui risque d'étouffer un enfant.
- NE JAMAIS utiliser avec un lit de bébé, des lits superposés, un lit à eau, ou un lit avec un matelas gonflable. Utiliser SEULEMENT sur un lit d'adulte.
- Utiliser uniquement sur un lit d'adulte avec matelas et sommier ou un lit à plateforme (planche de soutien d'une épaisseur de 1,59 cm au minimum).

⚠ MISE EN GARDE :

DANGERS DE COINCEMENT :

- NE JAMAIS utiliser la barrière sans avoir préalablement fixé cette dernière au lit de manière sécuritaire. Si l'installation est incorrecte, un espace peut se créer entre la barrière et le matelas, ce qui augmente les risques pour un enfant d'y rester pris ou de mourir.
- Cesser d'utiliser si la barrière de sécurité est endommagée, cassée, ou si des pièces sont manquantes.

REMARQUE : Vérifier périodiquement que la barrière est solidement poussée contre le lit.

MANUAL DE INSTRUCCIONES

Out of Sight™ Baranda Extra Ancha

Gracias por adquirir la Baranda muy ancha Out of Sight™ de Summer Infant. Esta novedosa baranda permite la seguridad de los niños y la comodidad de los padres. Es un producto esencial para la transición del niño de la cuna a la cama. Cuando no quiera utilizar la baranda, o sencillamente necesite el acceso a la cama, pliegue la baranda hacia abajo y deslícela bajo el colchón.

⚠ ADVERTENCIA:

PELIGRO DE ASFIXIA Y ESTRANGULAMIENTO:

- Los espacios en y alrededor de las barandas han atrapado a niños pequeños y matado a bebes.
- NUNCA la utilice con niños menores de dos años. Utilícela SÓLO con niños grandes que puedan entrar y salir de una cama para adultos sin ayuda. NUNCA debe sustituir a la cuna cuando esta todavía sea necesaria.
- NUNCA la utilice a menos que la baranda esté bien ajustada contra el colchón, sin dejar espacios y al menos a 9 pulgadas de la cabecera y del pie de la cama. No rellene los espacios con almohadas, colchas u otros artículos que puedan ahogar a los niños.
- NUNCA se debe usar con camas para niños pequeños, literas, camas de agua ni camas con un colchón hinchable. Utilícela SÓLO en una cama para adultos.
- Usar solamente en camas para adultos con un colchón y somier o plataforma (el grosor nominal del tablero de soporte debe ser 1,6 cm)

⚠ ADVERTENCIA:

PELIGRO DE QUE EL NIÑO QUEDE ATRAPADO:

- NUNCA utilice la baranda sin asegurarla apropiadamente a la cama. Una instalación incorrecta puede permitir que la baranda se aleje del colchón, lo que puede provocar la muerte o que alguien quede atrapado.
- Dejar de usar si está dañada, rota o si le falta alguna pieza.

NOTA: Se debe inspeccionar la barrera de camaperiódicamente para comprobar que esté bien ceñida a la cama.
